### ABOUT ME

Highly skilled software engineer with a solid foundation in data structures and algorithms, demonstrating proficiency in Python, Java and SQL. Known for intuitive problem-solving, who is also driven to stay current with the latest technologies.

### PROFESSIONAL EXPERIENCE

**Tata Consultancy Services**  
**Systems Engineer**

Hyderabad, India  
December 2023 - Present

- Led a collaborative team effort to develop a comprehensive Java-based urban services booking software using Core Java and SQL along with HTML, CSS and JavaScript as the main tech stack.
- Designed the entire UI to facilitate a seamless user experience.
- Orchestrated the creation of an intuitive admin dashboard using JDBC, JSP and Servlets, providing administrators with the tools to efficiently manage user details and optimize service operations.
- Successfully integrated agile methodologies, contributing to a streamlined development process and timely project delivery.

**Beta House of Art**  
**Freelance Graphic Designer and Artist**

October 2020 - present

- Executed over 10 distinctive logo designs and diverse album cover artworks, catering to a spectrum of clients including a luxury women's apparel brand and various non-governmental organizations (NGOs).
- Navigated diverse design requirements, ensuring each project met or exceeded client expectations and adhered to brand guidelines.
- Cultivated strong communication skills to effectively collaborate with clients, translating their vision into creative visual solutions.
- Managed multiple projects simultaneously, maintaining high-quality standards and meeting tight deadlines in a dynamic freelance environment.
